Topographic quadrangle maps. † 20c. each.

NOTE.—The Geological Survey makes contoured maps—three-dimension topographic maps which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to \$10.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the paper reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. STATE DEPARTMENT

NOTE.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, et cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish, Portuguese, and French translations, prepared by the Department's Division of Language Services, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each week a list of Department publications released that week.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see Federal Register Division, National Archives, Federal register.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing

the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring of document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e. g., H. rp. 2, 80th Congress.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price \$3.00 a year, including index ; foreign subscription, \$3.75 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.
